Hni 14 27

Dear Sir,

In continuation of my D.O.letter No.117 dated the 30th July 1927, re. the question of securing the recognition of our Medical Degrees by the General Medical Council of Great Britain, I am desired to enclose herewith a copy of letter No.45, dated the 24th July 1927 from the Principal, Medical College, Bangalore, on the subject and to state that the Vice-Chancellor agrees with the Principal and considers that a premature reference might injure the best interests of the Institution.

I am to add that it is inadvisable under the existing circumstances to make a move in this matter, specially in view of the recent decision of the British Medical Council in the case of the Grant Medical College, Bombay and other institutions.

A copy of the extract from the Hindu of the 30th ultimo in this regard is enclosed for the information of Government.

Yours sincerely,
B. Sankara

N.Rama Rao, Esq., B.A., B.L.,
Secretary to the Government of His Highness
the Maharaja of Mysore, Development Departments,
Bangalore.

# UNIVERSITY OF MYSORE.

Letter No.46 dated 24th July 1927, from the Principal, Medical College Bangalore to the Registrar, Mysore University, Mysore

With reference to your letter No.1358 dated 20th July 1927, I have the honour to state as follows:-

1. Before granting recognition of our degree of M.B.B.S. the General Medical Council will depute its representatives to inspect our laboratories, equipment, examinations, etc. The Final M.B.B.S. Examination will be held for the first time in April 1929; and it is possible for the representatives to inspect our system of examination(including question papers, oral, practical and clinical) only in April 1929 or thereafter. Therefore, I am of opinion that it is too premature to move in the matter at present; and the question of seeking recognition may be postponed till about six months before the Final Examination or 9 months prior to the actual conferring of the M.B.B.S.Degree.

2. In this connection I wish to state that my predecessor in Office and myself have repeatedly pointed out that the want of suitable buildings, and well-equipped laboratories and libraries will stand in the way of our securing recognition by the General Medical Council. Vide, pages 11 and 2 of the Annual Reports of the College for the years 1924-25 and 1925-26 respectively.

On several occasions,(including that of the recent visit to Bangalore of Sir Norman Walker, Secretary to the General Medical Council of Great Britain), my colleagues and myself have personally represented to the Vice-Chancellor and Members of Government the inadvisability of prematurely approaching the General Medical Council for recognition, before our Buildings, equipment, and other arrangements are complete.

3. Under these circumstances, I am of opinion that this question may be postponed till September or October 1928.

# UNIVERSITY OF MYSORE.

Extract from the Hindu of the 30th July 1927.

So far as we are aware, the report of Sir Norman Walker, and Col.Needham on the inquisition they conducted on behalf of the General Medical Council into the standard of Medical education in Indian Universities has not been officially published. The Times of India" however seems to have got some information about it. Our contemporary writes:

> The General Medical Council, we understand, has lately informed the Syndicate of the Bombay University that it is unable to grant permanent recognition to the Bombay graduates, but it is prepared for the present to extend the period of temporary recognition that was granted last year, for another year - up to June,1928 - by which time it is hoped the University will have put its house in order and have found a remedy for the deficiencies indicated. Calcutta University has been refused recognition altogether, while Madras, Lahore and Lucknow have, like Bombay had their temporary recognition renewed for another year.
